

# Combined IGF WG on IGF improvement

## Purpose

- To map current changes in IGF modalities with changes recommended by CSTD, and in WSIS+10 review, IGF reports and surveys and other relevant recommendation materials.
- For any gaps found, make recommendations on programmatic changes
- Document best practices seen in BPF, DC and MAG WG efforts. This will be a living document.

## Milestone

- Produce outline of report in time for next MAG face to face meeting
- Produce draft of report in time for the 3rd MAG face to face (assuming there is one)
- Produce recommendations in time for IGF 2016.
- Hold a session in Mexico on the recommendations.

## Type of group

IGF community working group using modalities developed for best practices groups. Part of the work of this group will include documenting the practices used in Working groups.
