INTERNET GOVERNANCE FORUM

ABOUT THE IGF AND HOW TO ENGAGE IN IGF 2022

IGF 2022: Resilient Internet for a shared sustainable and common future

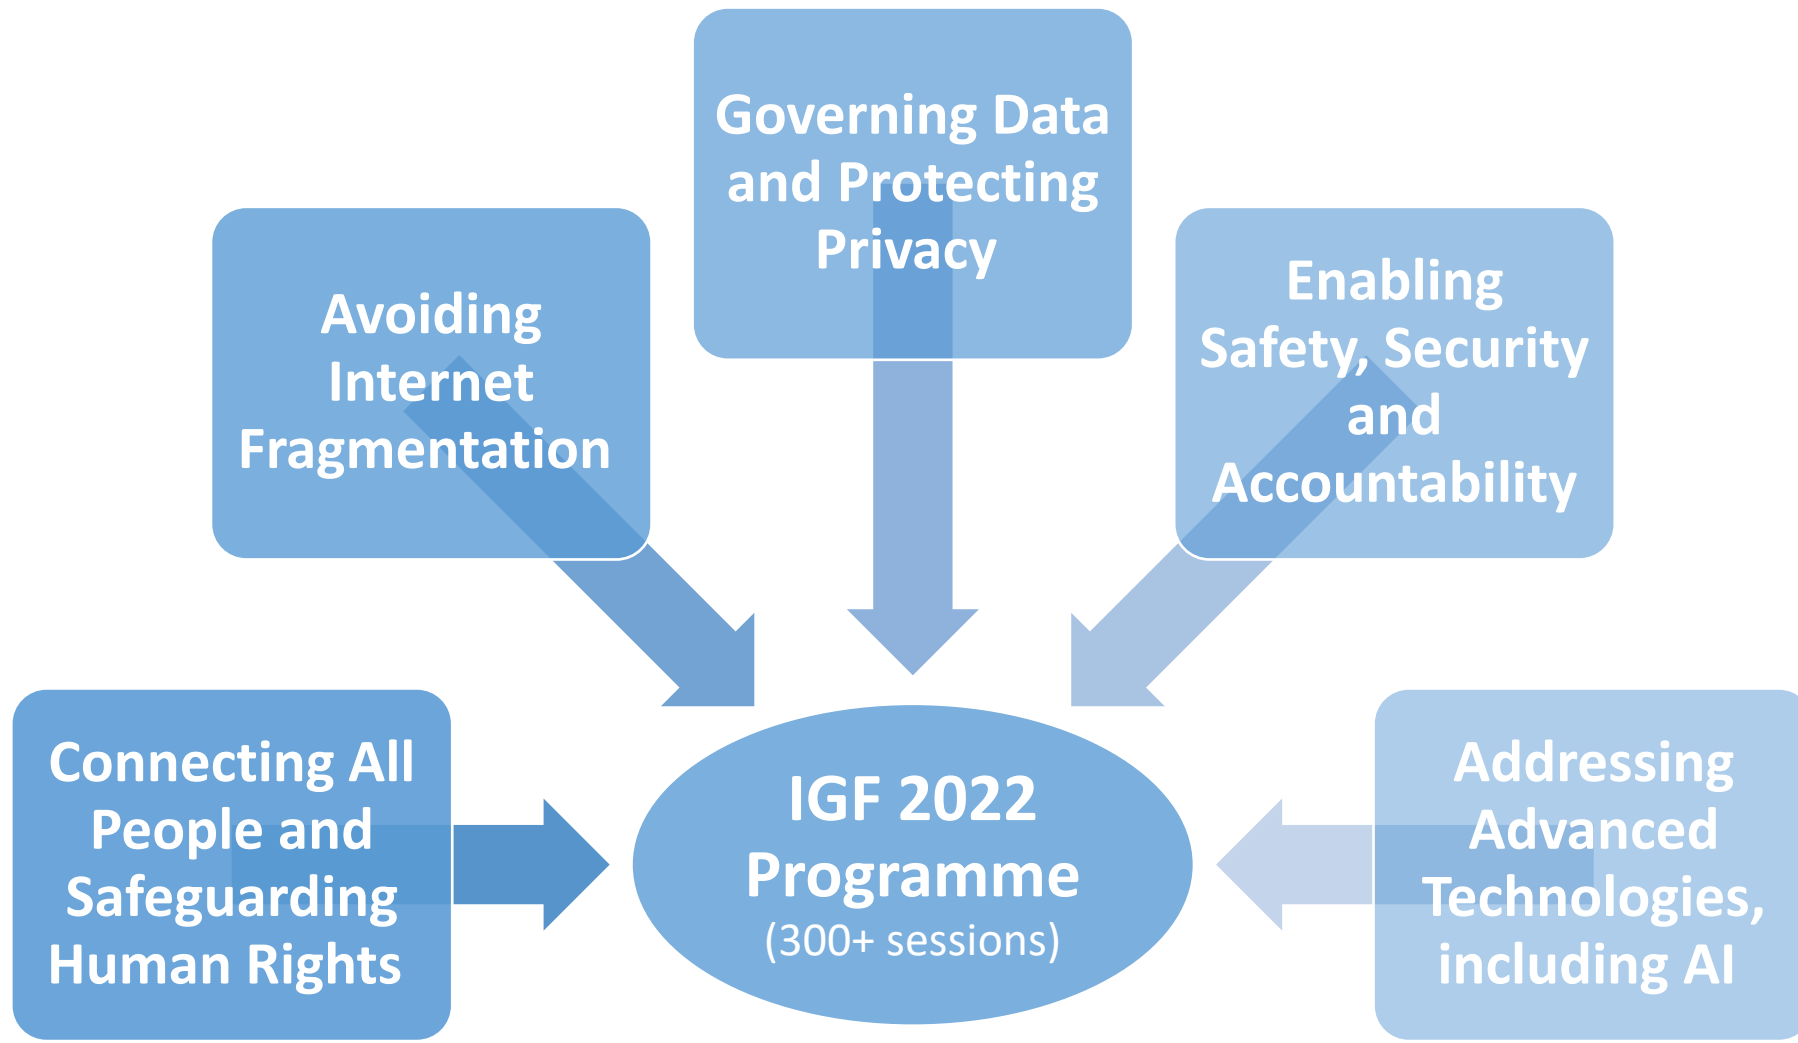

28 November – 2 December 2022
Hybrid format from Addis Ababa, Ethiopia

BOTTOM-UP BUILDING OF THE IGF 2022 PROGRAMME

- Following an open call for session proposals, over **300 different sessions expected to** focus on the Forum's main themes closely aligned with the Global Digital Compact.
- The programme also integrates **high-level leaders track, parliamentary track and youth track.**

IGF 2022 PARLIAMENTARY TRACK

Discussing legislative approaches to shaping our common digital future:

- Symposium at African IGF, 18-21 July, Lilongwe, Malawi
- Parliamentary activities at the 17th IGF in Addis Ababa

IGF 2022 Youth Track

- Cooperation with youth IGFs, international youth-focused organizations, IGF 2022 Host Country and IGF Secretariat
- Capacity development track focused on digital transformation
- Next workshop hosted at the African IGF in Malawi, 18-21 July 2022

UN & DIGITAL COOPERATION

digital COOPERATION

UN SECRETARY-GENERAL'S HIGH-LEVEL PANEL

"As a global community, we face questions about security, equity, and human rights in a digital age. We need greater cooperation to tackle these challenges and mitigate risks."

—UN Secretary-General António Guterres

#digitalcooperation

the age of digital interdependence

Report of the UN Secretary-General's
High-level Panel on Digital Cooperation

UN SECRETARY-GENERAL'S HIGH-LEVEL PANEL

UN SECRETARY GENERAL'S ROADMAP FOR DIGITAL COOPERATION

United
Nations

- (11 June 2020) United Nations Secretary-General issued a **Roadmap for Digital Cooperation** (A/74/821) which addresses *how the international community can better harness the opportunities presented by digital technologies while addressing their challenges*.
- It builds on recommendations made by the High-level Panel on Digital Cooperation, and input from Member States, the private sector, civil society, the technical community and other stakeholder groups and calls on us all to:

CONNECT

RESPECT

PROTECT

ROADMAP FOR DIGITAL COOPERATION

One:

ACHIEVING UNIVERSAL
CONNECTIVITY BY 2030

Two:

PROMOTING DIGITAL PUBLIC GOODS
TO CREATE A MORE EQUITABLE
WORLD

Three:

ENSURING DIGITAL INCLUSION FOR
ALL, INCLUDING THE MOST
VULNERABLE

Four:

STRENGTHENING DIGITAL CAPACITY-
BUILDING

Five:

ENSURING THE PROTECTION OF
HUMAN RIGHTS IN THE DIGITAL ERA

Six:

SUPPORTING GLOBAL COOPERATION
ON ARTIFICIAL INTELLIGENCE

Seven:

PROMOTING TRUST AND SECURITY IN
THE DIGITAL ENVIRONMENT

Eight:

BUILDING A MORE EFFECTIVE
ARCHITECTURE FOR DIGITAL
COOPERATION

(Paragraph 93a) Global digital cooperation

93. ... the following ideas have emerged with a view to making the Internet Governance Forum more responsive and relevant to current digital issues. These include:

- (a) Creating a strategic and empowered **multi-stakeholder high-level body**, building on the experience of the existing multi-stakeholder advisory group, which would address urgent issues, coordinate follow-up action on Forum discussions and relay proposed policy approaches and recommendations from the Forum to the appropriate normative and decision-making forums;
- (b) Having a more **focused agenda** for the Forum based on a limited number of strategic policy issues;
- (c) Establishing a **high-level segment and ministerial or parliamentary tracks**, ensuring more actionable outcomes;
- (d) Forging **stronger links among the global Forum and its regional, national, subregional and youth initiatives**;
- (e) Better **integrating programme and intersessional policy development work** to support other priority areas outlined in the present report;
- (f) Addressing the **long-term sustainability** of the Forum and the resources necessary for increased participation, through an innovative and viable fundraising strategy, as promoted by the round table;
- (g) Enhancing the **visibility of the Forum**, including through a stronger corporate identity and improved reporting to other United Nations entities.

ROADMAP FOR DIGITAL COOPERATION

United Nations as convener and platform

73. The United Nations is ready to serve as a platform for multi-stakeholder policy dialogue on the emerging technologies outlined above.

*74. To facilitate such a dialogue, I intend to appoint an **Envoy on Technology** in 2021, whose role will be to advise the senior leadership of the United Nations on key trends in technology, so as to guide the strategic approach taken by the Organization on such issues.*

- **Stakeholder consultations** on “creating a strategic and empowered **multi-stakeholder high-level body**, building on the experience of the existing multi-stakeholder advisory group, which would address urgent issues, coordinate follow-up action on Forum discussions and relay proposed policy approaches and recommendations from the Forum to the appropriate normative and decision-making forums”

United Nations

Department of
Economic and
Social Affairs

- **[OUTCOME] IGF LEADERSHIP PANEL – Call for Nominations** (closed on 29 Nov 2021)

*In line with the IGF mandate and as recommended in the Secretary-General’s Roadmap for Digital Cooperation, the United Nations Secretary-General has established the **IGF Leadership Panel as a strategic, empowered, and multistakeholder body, to address strategic and urgent issues, and to highlight Forum discussions and possible follow-up actions, in order to promote greater impact and dissemination of IGF discussions.***

OUR COMMON AGENDA

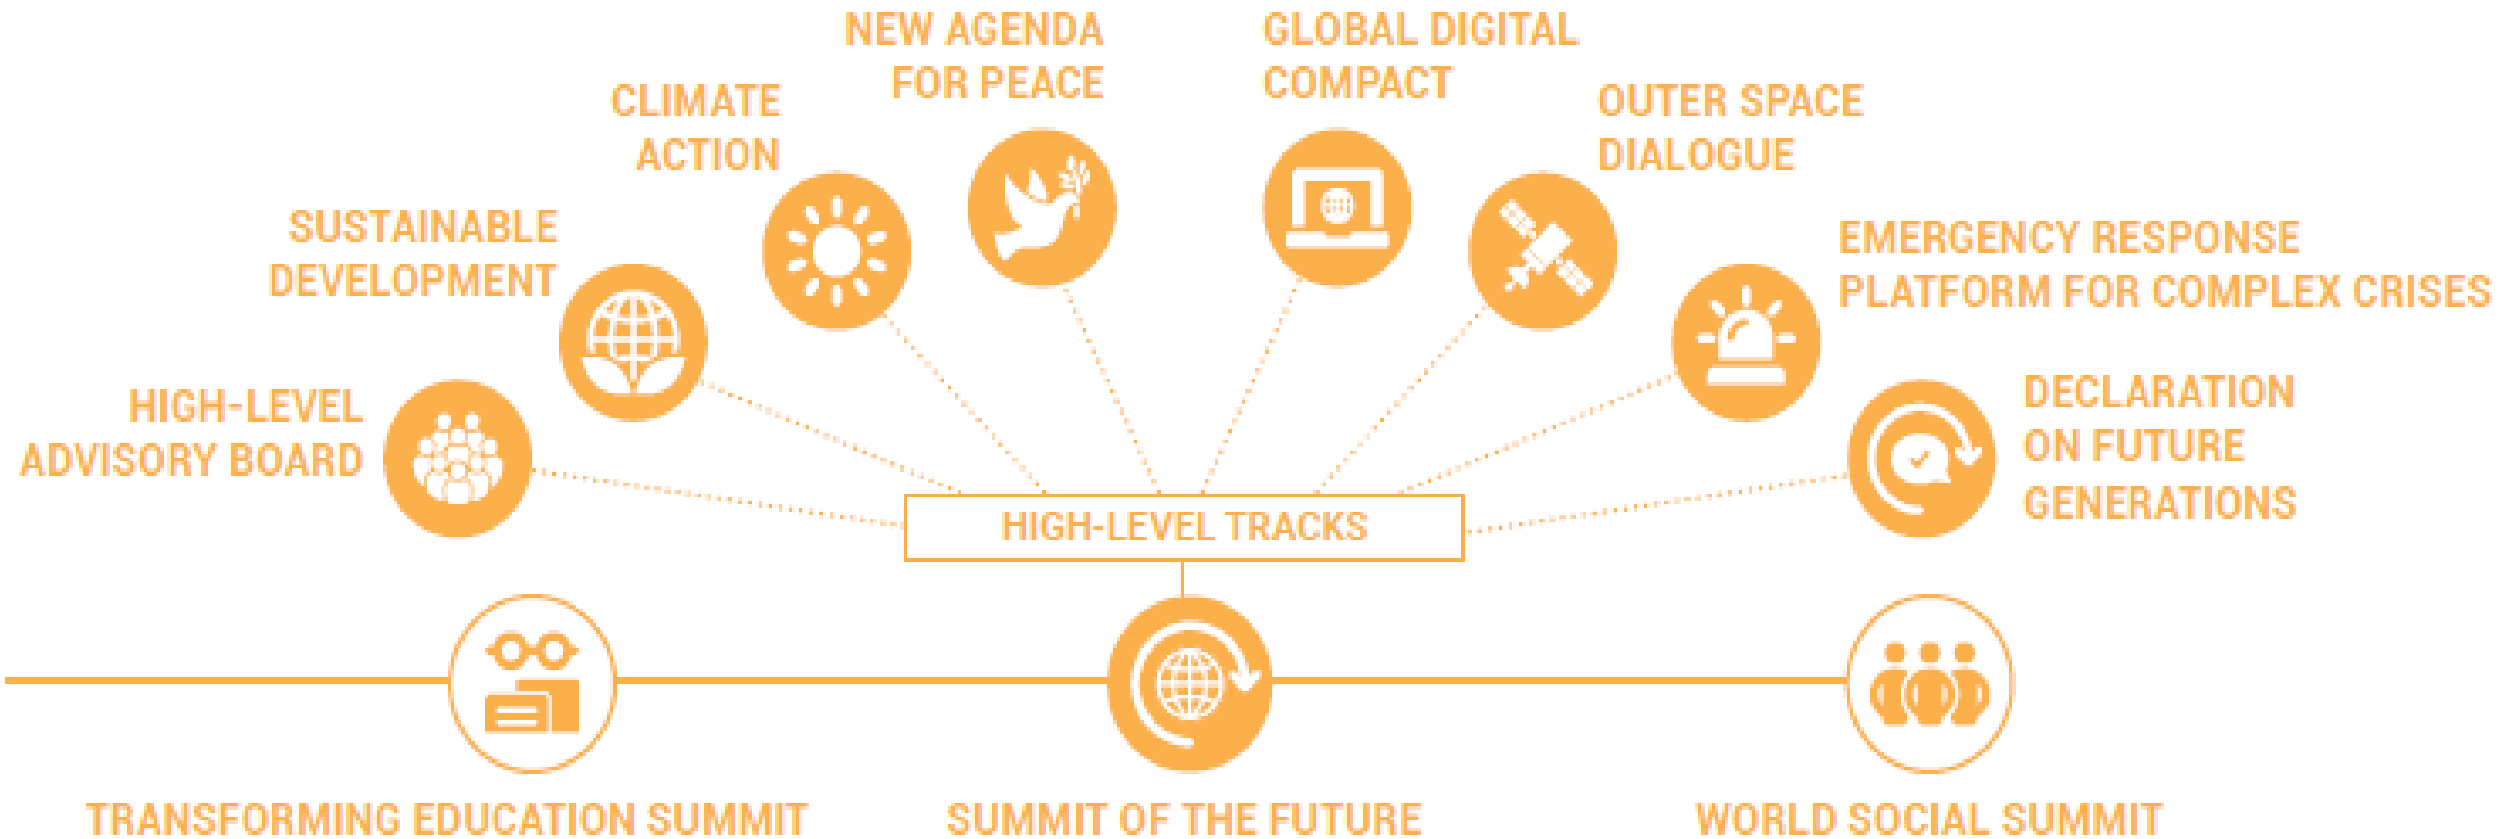

- “Our Common Agenda” report looks ahead to the next 25 years and represents the Secretary-General’s vision on the future of global cooperation and reinvigorating inclusive, networked, and effective multilateralism. The Secretary-General presented his report to the General Assembly in September 2021 before the end of the 75th session of the General Assembly.

93. It is time to protect the online space and strengthen its governance. I would urge the **Internet Governance Forum to adapt, innovate and reform** to support effective governance of the digital commons and keep pace with rapid, real-world developments.

Furthermore, building on the recommendations of the roadmap for digital cooperation (see A/74/821), the United Nations, Governments, the private sector and civil society could come together as a multi-stakeholder digital technology track in preparation for a **Summit of the Future** to agree on a **Global Digital Compact**. This would outline shared principles for an open, free and secure digital future for all.

OUR COMMON AGENDA and GLOBAL DIGITAL COMPACT

Agree on Global Digital Compact to outline shared principles for an open, free and secure digital future for all:

- Connect all people to the Internet, including all schools
- Avoid Internet fragmentation
- Protect data
- Apply human rights online
- Introduce accountability criteria for discrimination and misleading content
- Promote regulation of artificial intelligence
- Digital commons as a global public good
