the organisation's aim is spreading proper information on people with disabilities and their rights as well. I wrote down some funds and I also hope that there will be some opportunities to apply them for future collaboration.

I met people who had heard about a project which I used to running in my country. It is Internet radio Menq which launched with a "Beyond the Net" funding in 2016. It is one of ISOC funds. The information of our radio had reached to Australia. The Australian participant whom I met during IGF 2019 had heard about our radio during IGF 2017, as our radio had been nominated as one of best projects and was awarded a prize.

It was very pleasure to listen to interesting speeches of Angela Merkel, Chancellor of Germany, and António Guterres, Secretary-General of the United Nations.

One of most important benefit was communicating with people from different country's and to get to know of successes and problems in their countries.

3. What inputs do you plan to bring to your community from the meeting? (max. 300 words)

I'm going to share knowledge and experience I've gained during IGF 2019 to blind community of Armenia. I will use the experience of developed countries in the accessibility sphere. For example there are very problems with accessibility issues in Armenia and I will try to use the successful experience of developed countries as I got to know how those countries have solved those kind of problems.

4. Briefly outline your participation at the IGF meeting, including attended sessions, gained knowledge, networking, recommendations for improvements. (max. 500 words)

I was interested in sessions on human rights, Children's Rights, Sex Work, Drug Use, Harm Reduction, and accessibility issues. There were sessions referring to marginalized communities and I participated in those ones. As people with disabilities consider to be a part of marginalized communities. Children's privacy and data protection in general in Digital world is also my priorities and I chose sessions on that topics.

I was so happy that I found some sessions on empowering people with disabilities through the internet. "Internet Accessibility Empowering Persons with Disabilities" and sessions like that was the most ones I participated in with great pleasure.

As a member of Yerevan Municipality counsel I was interested in smart-city concepts. And I found sessions on that topics "Data Governance for Smarter City Mobility". I am going to share the information I've gained with my colleagues.

14th Annual Internet Governance Meeting
25 - 29 November 2019
Berlin, Germany

Post-Meeting Report for Funded Participants

Please submit the report no later than 15 December 2019 to Ms. Lima Madomi from the IGF Secretariat at: lima.madomi@un.org

First and Last Name: Sipan Asatryan

Email address: sipan@nli.am

1. How would you describe your participation at the IGF meeting? (max. 150 words)

It was my first participation in IGF. It was very informative for me and I've gained lots of information. It was great to participate in numerous sessions. There were so interesting sessions that it was very hard to select important one. But those are hundreds, and me, one. So I tried to choose ones which I am interested in. I am definitely going to share the knowledge gained during IGF 2019 to others in my country. Especially I am interested in human rights issues and problems people with disabilities as a great part of human rights. I'd like to find more sessions considering to persons with disabilities. There were 2 sessions regarding accessibility issues. My desire is to gain more information in this sphere.

2. What is the most important benefit you have gained at the meeting? (max. 300 words)

I met some important people and I hope I will collaborate with them in the future as the organisation that I am running now is engaged with accessibility issues in Armenia and
