Who we are

Established in 2007, the Internet Governance Forum Spain (IGF Spain) is an open and decentralized space that aims to foster the debate of public policy issues relating to the Internet. It draws inspiration from the Internet Governance Forum (IGF), established by the United Nations Secretary General in 2006. The IGF Spain is chaired by Prof. Jorge Pérez Martínez and provides a multistakeholder platform that brings together people from various stakeholder groups on equal footing (representatives of the civil society, government, the private sector, the academia, and the technical community). It is meant to elevate the voice of the Spanish society to the international fora of internet governance.

The funding of the IGF Spain comes from the corporate sponsorships of Fundación Telefónica, Vodafone, Google, Orange and TikTok, and in-kind collaboration of other entities, such as the Universidad Politécnica de Madrid[1] (UPM) and the Secretary of State for Telecommunication and Digital Infrastructures.

Structure

The IGF Spain is supported by a Multistakeholder Advisory Group, whose members belong to different organizations within the government, the private sector, the civil society, and the technical and academic communities.

The Multistakeholder Advisory Group is open to anyone willing to engage in the activities of the forum. Other entities, such as civil society (Asociación de Internautas, Anei, Cibercotizante, Cibervoluntarios and Asociación de usuarios de Internet) and corporate associations (Ametic and DigitalES), are also engaged in the working groups and help to distribute the messages of the forum. The Multistakeholder Advisory Group holds regular meetings throughout the year.

The Multistakeholder Group select the topics and helps define the working groups, which are in charge of finding the panelists and the focus of the debate.

[1] The Spanish IGF has a permanent secretariat within the academia, in charge of the FUNDETEL Foundation at the ETSI Telecomunicación of the Universidad Politécnica de Madrid (UPM).

Board of Directors

- Prof. Jorge Pérez Martínez. Chair
- Mrs. Nani Fernández. Fundación Orange
- Mr. Miguel ESCASSI. Google
- Mr. Pablo Gonzalo. Fundación Telefónica
- Mr. David Sola. Vodafone
- Mr. Rafael Pérez Galindo. Secretary of State for Digital Advancement

The Board of Directors was created in 2012 to establish the general objectives of the forum and to make sure that they are achieved. The composition of the Board of Directors reflects the open nature of the forum and the intention to involve people with extensive experience in the field.

Multistakeholder Advisory Group

The Multistakeholder Advisory Group (MAG) is involved in decision-making and meets regularly. It is formed by different interest groups, including government, academia, industry, and NGOs and civil society associations.

Active participation in the Forum activities is important to remain members of the MAG.

MEMBERS

- Agustín de Asís Roig. Universidad Carlos III de Madrid.
- Amalia Pelegrín Martínez-Canales. Directora de Digital Policy y Talento en AMETIC.
- Ana Isabel Maldonado Cid. Ministerio de Asuntos Económicos y Transformación Digital.
- Ana Moreno Romero. Profesora en la ETSI Industriales, Universidad Politécnica de Madrid.
- Borja Adsuara Valera. Profesor, Abogado y Consultor en estrategia digital.
- Cesar Tello. Director general de Adigital.
- David Sola. Director Regulation, External Affairs & European Funds. Vodafone España.
- Eusebio Felguera. Políticas Publicas e Internet. Telefónica.
- Eva del Hoyo. Directora general en el Ministerio de Asunto exteriores- Unión Europea y cooperación.
- Félix Arteaga. Investigador del Real Instituto Elcano.
- Fernando Davara Rodríguez. Presidente de la Fundación España Digital.
- Francisco Pérez Bes. Partner of Digital Law en Ecix Group.

- Isabel Santaella García-Royo. Manager Public Affairs. Orange España.
- Jesús Martín. Manager Regulatory Affairs Legal, Regulation and Corp. Security. Vodafone España.
- Jorge Pérez Martínez, Coordinador del Foro de la Gobernanza de Internet en España
- José Félix Hernández-Gil, Dirección de la Secretaría Técnica del IGF Spain
- José Joaquín Flechoso. Presidente de Cibercotizante.
- Juan Carlos Ramiro Iglesias. CEO AISTE.
- Juan Luis Redondo Maillo. Director de Políticas Públicas y Regulación de Telefónica.
- Juan Manuel Zafra Díaz. Profesor Universidad Carlos III de Madrid.
- Juan Ramón de Paramo. Universidad de Castilla-La Mancha.
- Maite Arcos Sánchez. Consejera independiente en Enagás, Experta en regulación digital y audiovisual.
- Marta Beltrán Pardo. Profesora de la Universidad Rey Juan Carlos.
- Miguel Ángel de Bas Sotelo. Socio Director de Gate2G.
- Miguel Escassi. Responsable de Relaciones Gubernamentales y Políticas Públicas en Google España y Portugal.
- Miguel Pérez Subías. Presidente de la Asociación de Usuarios de Internet.
- Nani Fernández García. Directora de Relaciones Institucionales. Orange España.
- Ofelia Tejerina Rodríguez. Presidenta de la Asociación de Internautas.
- Pablo Barrionuevo. Políticas Publicas e Internet . Telefónica.
- Pablo Gonzalo Gómez. Responsable del área de Conocimiento y Cultura de Fundación Telefónica.
- Pilar Rodríguez Pita, Coordinadora del Foro Joven de la Gobernanza de Internet en España
- Rafael Pérez Galindo. Subdirector General de Servicios de Sociedad de la Información. Secretaría de Estado para el Avance Digital.
- Raquel Jorge. Investigadora del Real Instituto Elcano.
- Ricard Martínez Martínez. Universidad de Valencia.
- Víctor Calvo-Sotelo. CEO de DigitalES
- Yolanda Rueda Fernández. Presidenta de Cibervoluntarios.
- Zoraida Frías Barroso. Profesora Universidad Politécnica de Madrid.

Forum Secretariat

The Forum Secretariat maintains and develops the activities of the IGF Spain under the coordination of Prof. Jorge Pérez Martínez. Its goal is to develop activities of research and dissemination within the field of Internet governance.

The secretariat aims at:

- Broadening the debate and engagement.
- Coordinating the activities that the Multistakeholder Group develops.

- Representing the national initiative (IGF Spain) in and outside the country.

The IGF Spain Technical Office is constituted by:

- Forum Chair: Dr. Jorge Pérez Martínez
- Communication & Operational Manager: José Félix Hernández-Gil

Contact Information is:

IGF Spain Secretariat
Av. Complutense 30, 28040, Madrid, Spain
Oficina de Fundetel
Phone Number: +34 910 672 622
Email: igfspain.etsit@upm.es
Website: www.igfspain.org

Youth IGF

The Youth IGF Spain aims to be a multidisciplinary space for dialogue where all the young people in Spain can share their vision and expectations about the future of the Internet. It was created on September 2022, and so far has 33 members from different disciplines and universities from Spain, including telecommunications and public relations.

So far, we have had different activities to promote the initiative:

1. Competition to create the poster and motto of the IGF Spain 2023
2. Competition sponsored by the association DigitalEs under the theme: "Salud mental de los jóvenes contra el uso de redes sociales y videojuegos" (Youth Mental Health vs use of social media and videogames). The prize is a trip to attend the European Dialogue on Internet Governance 2024 in Vilnus as part of the YouthDIG.
   The competition was structured in two phases, the first where the participants had to create a short video, which were later judged by our sponsor and by the IGF Spain. The four bests were selected for a debate which will take place on the 29th of November, the day dedicated to the Youth IGF Spain.
3. Competition sponsored by the association Adigital under the theme: "Construyendo la confianza en la era de la Inteligencia Artificial: Navegando la ética, la seguridad y los sesgos" (Building trust in the era of Artificial Intelligence: Ethics, security and bias). The prize is a trip to attend the European Dialogue on Internet Governance 2024 in Vilnus as part of the YouthDIG.
   The competition was structured in two phases, the first where the participants had to create a short video, which were later judged by our sponsor and by the IGF Spain. The four bests were selected for a debate which took place on the 29th of November, the day dedicated to the Youth IGF Spain.

4. Organization of a panel at IGF 2023 in Kyoto. The youth coordinator co-organized and participated in a panel on "WS #345 DigiSov: Regulation, Protectionism, and Fragmentation" under the topic Internet Fragmentation with the participation of:
   Speaker 1: Andrea Beccalli, Technical Community, Western European and Others Group (WEOG)
   Speaker 2: Neelesh Maheshwari, Civil Society, Asia-Pacific Group
   Speaker 3: Bruna Santos, Civil Society, Latin American and Caribbean Group (GRULAC)
   Speaker 4: Venceslas Katimba, Government, African Group

5. Youth IGF Spain day: 29th November 2023 where we presented the activities of the year and had the final for the contests moderated by the youth coordinator. Had a total of 23 attendees, from different disciplines and universities, with participation of:
   - Victor Calvo-Sotelo: CEO DigitalES
   - María Lazaro: Marketing Director Adigital
   - Manuel Sierra Castañer: Director of ETSIT UPM
   - Isabel Álvaro Alonso: Public Policies in Telefónica

   The event was held on a hybrid format for finalists outside Madrid.

Annual meeting preparation

Working groups

The Spanish IGF annual meeting 2023 is a two-day hybrid event (face-to-face and online) held at Polytechnical University of Madrid with different sessions in a structured program with several roundtables. All the talks had the aim to cover the most relevant and interesting issues in the field of internet governance. These sessions were organized by the working groups, which are built annually at the beginning of the year to work in the organization of the annual event.

The members of each working group are representatives of different stakeholder groups: public sector, private sector, academy, and civil society represented in different NGOs.

Communication & Dissemination

The Secretariat designed and implemented a strategic plan for the general communication of the event. it was worked in five lines:

- Contact and articulation with the experts and exhibitors for the different presentations and for the main conferences.
- Dissemination to favor the participation in the event.
- Contact with organizations from de human and social field to amplify the discussion and the interaction.
- Articulation with press and journalists to amplify the presence in the mass media and to prepare the management of roundtables for the event day.
- Increase the presence in social networks.

Web and Social Media

The Secretariat, as every year, develops an annual action plan for the social networks and for the website (www.igfspain.org) to keep the community informed and engaged. We primarily use Twitter and LinkedIn as the information channel for the news and events and. Finally, we generate posts on the website with content related to the very national initiative, as well as to related events and initiatives worldwide.

Building process

The content of the IGF Spain 2023 was the result from the participation of the Secretariat in the NRIs strategic group and was oriented from the central topic of the Global IGF 2023.

Annual Meeting Summary

Objectives

The IGF Spain Annual Meeting features a Program with the following objectives:

- To analyze current issues, finding points of consensus and developing proposals to improve the Internet Governance framework in Spain, as well as their implementation in an international context.
- To open the debate on those issues of greatest interest to the various stakeholders involved.
- To share the main ideas gathered after the event to contribute to the preparation of the Global IGF.

The IGF Spain annual meeting was held on September 26-27th at the ETSI Telecommunication in the Polytechnical University of Madrid (UPM).

Program of the annual meeting

Opening ceremony

The opening ceremony was chaired by Guillermo Cisneros, rector de es de la UPM, and it counted with the participation of the Secretary of State for Digitization and Artificial Intelligence from the Spanish Government.

Speakers:

- Manuel Sierra. Director de ETSITM-UPM.
- Jorge Pérez. Director del Foro de Gobernanza de Internet en España.
- Carme Artigas. Secretary of State for Digitization and Artificial Intelligence. Ministry of Economic Affairs and Digital Transformation
- Jorge Pérez Martínez. Chair IGF Spain.

A video recording of the session can be seen in the following link:
https://youtu.be/gSe243I1vT8?t=1

Sponsors session

The companies supporting the Spain IGF explained theirs views about the main issues related to Internet governance.

Speakers:

- Miguel Escassi. Director de Políticas Públicas y Relaciones Institucionales en Google España.
- David Sola. Director Public Policy, Regulation & EU Funds. Vodafone España
- Juan Luis Redondo. Director de Digital Public Policy en Telefónica.
- Isabel Santaella. Manager de Public Affairs en Orange España ·.

A video recording of the session can be seen in the following link:
https://youtu.be/gSe243I1vT8?t=1589

Session 1. The contribution of OTTs to the financing of European telecommunications infrastructures

After the debate held on this topic at the 2022 Spain IGF, another one will be organized this year where the main agents present in the digital platform and telecommunications operator sectors in Spain will present their point of view on this issue. Since then, the European Commission has opened a public consultation to decide on network cost sharing in which all actors have been able to provide data to defend their positions.

Speakers:

- Agustín Baeza. Consultor de Asuntos Públicos y columnista de Disruptores e Innovadores. El español (moderator)
- Ignacio Vela. Government Affairs and Public Policy Manager at Google.
- Christian Hacker. Director of Regulation. Orange.
- José Luis Zimmermann. Head of Public Policy Spain & Portugal. Meta.
- Gonzalo López Barajas. Gerente Regulación Corporativa. Telefónica.
- Jesus Martín. Manager of Regulatory Affairs. Vodafone.

A video recording of the session can be seen in the following link:
https://youtu.be/gSe243I1vT8?t=5370

Session 2. Net neutrality.

The proposal for large internet platforms to help finance telecommunications infrastructure is giving rise to a debate about its effect on net neutrality. There are very conflicting positions on the subject. Opponents believe that it would lead to unfair treatment of content that would violate the principle that has favoured the rapid introduction of new services and innovation on the Internet, while proponents do not see this problem and argue that it would contribute to the development of better communications networks. This session will analyse the views of industry players on this topic.

Speakers:

- Zoraida Frías. Profesora de la ETSIT UPM. (moderator).
- J Roslyn Layton. Visiting Researcher at Aalborg University's Center for Communication, Media and Information Technologies, Copenhagen, Denmark.
- David Frautschy Heredia. Senior Director for European Government and Regulatory Affairs at Internet Society.
- Andrés Sastre. Regulatory Affairs. Vodafone.
- Eusebio Felguera. Head of Digital Public Policy. Telefónica.
- Ignacio Vela. Government Affairs and Public Policy Manager at Google
- María Merino. Manager de Regulación, Competencia y Contenidos en Orange España.

A video recording of the session can be seen in the following link:
https://youtu.be/gSe243I1vT8?t=11526

Session 3. Are we in time to govern Artificial Intelligence? how?.

This round table will discuss the regulation of Artificial Intelligence. Topics such as future regulation through the General Regulation and sectoral laws (LOPD, LPI, LPAC...), the implementation of a regulatory Sand Box, the creation of AI supervisory bodies at European (ECAT) and Spanish (AESIA) level, and the importance of AI co-regulation and co-governance systems will be addressed.

Speakers:

- Antonio Ortiz, Analista, escritor y divulgador de tecnología e inteligencia artificial (moderator).
- Borja Adsuara. Experto en Derecho Digital.
- Justo Hidalgo. Chief AI Officer de Adigital
- Idoia Salazar. Presidenta de OdiseIA
- Fernando Carbajo. Presidente de la Sección Primera de la Comisión de Propiedad Intelectual
- Ezequiel García Collantes, S.G. de Inteligencia Artificial y Tecnologías Habilitadoras Digitales
- Yasmina Laraudogoitia. Public Policy & Government Relations Manager, TikTok Spain & Portugal
- Josetxo Soria. Analista senior de Políticas Públicas at Google

A video recording of the session can be seen in the following link:
https://youtu.be/v-qFql9Bw2k?t=1

Session 4. Freedom of expression and information on the web

This session will focus on the importance of ensuring freedom of expression and information in the digital ecosystem, addressing issues such as online censorship, disinformation, data protection and the accountability of digital platforms in a context in which it is necessary to find a balance between freedom of expression and the protection of rights, promoting transparency and accountability on the part of the actors involved.

Speakers:

- Carlos del Castillo. Experto en derechos digitales e implicaciones sociales de la tecnología en el diario.es (moderator)
- Elena Herrero-Beaumont. Cofundadora y directora de la Fundación Ethosfera. Observatorio de la Gobernanza de los Medios
- Ofelia Tejerina. Presidenta de la Asociación de Internautas
- Alejandro Perales. Presidente de la Asociación de Usuarios de la Comunicación
- Juan M. Zafra. Director general de Club Abierto de Editores (CLABE)

A video recording of the session can be seen in the following link:
https://youtu.be/v-qFql9Bw2k?t=7952

Session 5. Digital rights for the connected generation.

In this roundtable discussion, three young individuals will engage in a conversation with several distinguished experts, delving into the topics of the European Declaration of Digital Rights and Principles and the Spanish Charter of Digital Rights. The session will centre on the profound influence these texts exert on the younger generation and their pivotal role in shaping the future of the internet.

Speakers:

Experts

- Carlos Romero Duplá. Consejero de Transformación Digital en la Representación Permanente de España ante la UE
- Moisés Barrio. Letrado del Consejo de Estado. Profesor de Derecho digital. Asesor de diversos Estados y de la Unión Europea en materia de regulación.
- Jesús Cordero. Presidente de JEF España y Abogado en ECIJA
- Juan Carlos Ramiro. CEO de AISTE

Young interviewers

- Pilar Rodríguez. Coordinadora del Youth IGF Spain
- Amira Esmeralda Jaouhari Eid. Global Youth Ambassador Theirworld/ Youth for Change Plan International
- Isabel María Alvaro Alonso. Políticas Públicas Digitales Telefónica

A video recording of the session can be seen in the following link:
https://youtu.be/v-qFql9Bw2k?t=11902

Closing ceremony.

Speakers

- Matías González Martín. Secretario General de Telecomunicaciones y Ordenación de los Servicios de Comunicación Audiovisual
- Manuel Sierra. Director de ETSITM-UPM.
- Jorge Pérez. Director del Foro de Gobernanza de Internet en España.

A video recording of the session can be seen in the following link:
https://youtu.be/v-qFql9Bw2k?t=15278

Participation in the annual meeting

The 2023 Spain annual meeting has chosen a hybrid format. It has reached 236 registered participants.

The total number of speakers where 41. These speakers represent well all the sectors of the Internet stakeholders in Spain. The participation included representatives from the Spanish government and public institutions:

- Carme Artigas. Secretary of State for Digitization and Artificial Intelligence. Ministry of Economic Affairs and Digital Transformation.
- Matías González Martín. Secretario General de Telecomunicaciones y Ordenación de los Servicios de Comunicación Audiovisual
- Ezequiel García Collantes, S.G. de Inteligencia Artificial y Tecnologías Habilitadoras Digitales
- Carlos Romero Duplá. Consejero de Transformación Digital en la Representación Permanente de España ante la UE
- Moisés Barrio. Letrado del Consejo de Estado. Profesor de Derecho digital. Asesor de diversos Estados y de la Unión Europea en materia de regulación.

There was also an important participation of the young people. More than 50% of the participant where students from universities in Spain.

Summary of main messages.

This summary has been prepared considering the talk of Jorge Pérez in the closing ceremony and the document from Isabel María Alvaro Alonso[2].

- The European telecommunications sector is witnessing a decline in both its size and global competitiveness, raising concerns about falling behind the global technology forefront. The persistent fragmentation of the European market has become a chronic issue, emphasizing the need for local scalability to ensure economic sustainability. In order to foster a thriving digital ecosystem, it is imperative to implement measures that guarantee economic viability and ensure the availability of modern communication infrastructures, facilitating the growth of digital services.

- Net neutrality is a universally recognized and embraced concept within the industry. In contrast to other regions worldwide, Europe enforces stricter net neutrality regulations, which, in some cases, may restrict innovation.

- In a sector where calls for minimal regulation are common, there is a growing demand for specific regulations concerning artificial intelligence. The complexity and far-reaching impacts of AI generate significant uncertainties. Europe a pioneering force in addressing these challenges.

- Although Europe may not lead in the technological development of Artificial Intelligence, substantial opportunities for its application across various economic sectors await exploration. Ensuring equitable access to the datasets required for AI systems is essential.

- Preserving online freedom of expression hinges on transparency in content management algorithms and the responsibility of platforms to manage content appropriately. Differentiating the treatment of media, influencers, and individual citizens' content is crucial.

- It is necessary to properly differentiate the treatment given to the content of the media, influencers and citizens.

- Developing digital rights comprehensively and ensuring their effective defense in an increasingly digital world is an ongoing journey. Spain holds an advantage with its digital rights charter, and Europe has a significant role to play in promoting these rights on a global scale.

Course on Governance of the Digital Ecosystem and Internet

An online course has been organized from September 18 to 28, 2023 in collaboration with the Universidad Europea del Atlantico.

The objective of the course is to provide a holistic vision of the digital ecosystem and the Internet that allows students to acquire updated knowledge about their governance, the agents involved, the context in which they move and the European and Spanish regulations that affect them.

The course is aimed at undergraduate, master's and doctoral students of any degree related to technologies, as well as professionals, who wish to acquire knowledge about the Governance of the Digital Ecosystem and the Internet.

The course consists of 14 topics structured in 5 modules and a complementary activity of assistance to the IGF Spain Annual Meeting. The following is the course program.

Module 1. Analysis of the context.

- 1.1. From the Internet to the global digital ecosystem.
- 1.2. The regulation of the open Internet: net neutrality and level playing field.
- 1.3. Privacy and security in the post-Snowden era.

Module 2. Digital vs. Digital Sector Digitalisation of the economy and society

- 2.1. Definitions and characteristics of the digital ecosystem/sector.
- 2.2. Digitalisation and the digital transformation of the economy and society.

Module 3. Next regulation in Spain

- 3.1. Regulation of telecommunications. The general telecommunications law.
- 3.2. Regulation of content in Spain. General Law on Audiovisual Communication, Protection of Intellectual Property and New Agents in the Media System.
- 3.3. Regulation of trust and security in telecommunication networks. 5G cybersecurity law.

Module 4. Emerging European regulation

- 4.1 Social Media Governance. Digital rights in the Digital Services Regulation (DSA).
- 4.2 Regulation of platforms in the Digital Markets Regulation (DMA).
- 4.3 Artificial Intelligence: can you put doors to the field?
- 4.4 European framework for the regulation of telecommunications networks and digital services.

Module 5. European Digital Sovereignty in a context of geo-politicization of the economy.

- 5.1. The political dimension of digital citizenship: the challenges of democracy
- 5.2. The context of sustainability and climate change in Europe, and its relationship with digitalisation.

5.3. European public policies on technology.

Classes taught by ETSIT-UPM professors were combined with invited lectures by professionals from the sector of recognized prestige. Below is the list of teachers.

Teacher	Institution
Ana Moreno	UPM
Augustin de Asis Roig	UC3M
Borja Adsuara Valera	Legal professional
Felix Arteaga	Elcano
Jorge Perez	UPM
Juan Luis Redondo	UPM
Juan Ramón de Páramo	UCLM
Juan Zafra	Publishers Club
Pilar Rodriguez Pita	UPM
Senén Barro Ameneiro	U. Santiago
Zoraida Frias	UPM

Annex I. Presence in Social Networks and media

Press clipping

Jornadas IGF Spain 2023 | 26 y 27 de septiembre de 2023

El **Foro de Gobernanza de Internet** se celebrará los próximos 26 y 27 de septiembre la XIII edición de sus jornadas anuales, presencial en la ETS Ingenieros de Telecomunicación de la UPM y en remoto a través de Internet.

En línea con las directrices de **IGF Global,** las jornadas están abiertas a la participación de todos los agentes sociales. "La gobernanza de Internet es el desarrollo y la aplicación por los gobiernos, el sector privado, y la sociedad civil, en las funciones que les competen respectivamente, de principios, normas, reglas, procedimientos de adopción de decisiones y programas comunes que configuran la evolución y utilización de Internet".

Las jornadas del IGF-Spain, un organismo promovido por Naciones Unidas, reunirán una edición más a expertos nacionales e internacionales que compartirán experiencias en el uso de las TIC.

Como cada año, asistirán representantes del gobierno, del sector privado y de la sociedad civil con una amplia presencia de directivos y técnicos del sector de las tecnologías de la información, de la comunicación y de las telecomunicaciones; académicos, profesionales de la comunicación y de asociaciones y organizaciones dedicadas a impulsar la sociedad digital.

El lema de estas jornadas "Conectando derechos, forjando futuro . Los derechos digitales son la extensión de la **Declaración Universal de Derechos Humanos** bajo este concepto, el lema de IGF-Spain aspira a conectar los derechos digitales y los derechos humanos aplicados en la era digital y que todos los países tengan una regulación similar.

EL PRESIDENTE DE CINTAC HA PARTICIPADO EN LAS JORNADAS ANUALES DEL FORO DE LA GOBERNANZA DE INTERNET EN ESPAÑA

El presidente de CINTAC, Juan Carlos Ramiro, ha participado en la XIII edición de las Jornadas Anuales del Foro de la Gobernanza de Internet en España.

La mesa trataba de "Derechos digitales para la generación conectada", donde se conversó sobre la declaración europea de derechos y principios digitales, así como de la carta española de derechos digitales.

"Los derechos digitales son un plan que tiene como objetivo que los ciudadanos se sientan seguros e incluidos en internet. Se engloban dentro de 6 áreas: las personas como centro de transformación digital; inclusión; libertad de elección; participación en espacios públicos; sostenibilidad; y seguridad y empoderamiento. Dentro de este último, es donde podemos ver especialmente mencionados a los jóvenes: la importancia de que tomen decisiones seguras y que se garantice su bienestar y seguridad online", declaró Pilar Rodríguez, moderadora de la mesa.

España ha sido pionera en los derechos digitales. Fue el primer país europeo que publicó una carta de derechos digitales en la que de nuevo vemos artículos dedicados a los menores destacando así la importancia que tienen como grupo vulnerable dentro de Internet.

Carlos Romero Duplá expuso la idea de que es importante ir extendiendo el reconocimiento de estos derechos en las normativas que se van adoptando como, por ejemplo, a través de los paquetes de servicios digitales y, también, a través de la implicación de las plataformas de las redes sociales, mediante corregulación y su involucración.

Moisés Barrio Andrés manifestó que es esencial conseguir que la regulación europea sirva de ejemplo y modelo a nivel mundial y, por tanto, alcanzar un equilibrio entre un progreso tecnológico pero también el respeto de los derechos de los ciudadanos.

"Todas las tecnologías son grandes oportunidades que por supuesto tienen retos y todos podemos jugar un papel clave en ayudar a que esas oportunidades sean mejor aprovechadas y a garantizar que sean más accesibles. Es fundamental adaptar la conversación a todos los públicos y que sea accesible", declaró Jesús Cordero González.
