

Tasks for the MAG Meeting 23 June

- **Main task:**

MAG evaluation groups to discuss proposals based on the combined scores for their areas and cluster the proposals in three main baskets

- Focus on quality and content
- Do not be concerned about numbers at this stage (neither total numbers of sessions, nor numbers per issue area or policy question)

- **Time permitting, additional task:**

Sort the proposals with respect to issue areas and sub-themes, to help understand the overall programme structure in respect to workshops.

MAG evaluation groups to discuss combined scores for their areas and cluster them in three main baskets

Green basket

Consensus on good proposals to be included in the final list without any changes required.

Mark those that could be organized in the preparatory phase should organizers agree.

Orange basket

Proposals on which there is not consensus on and which could be:

- ✓ moved to another area; or
- ✓ sent to the organizers for updating with e.g. clarification, or strengthening a component such as participation; or
- ✓ considered for a merger with another proposal pending discussion with the organizers; or
- ✓ considered for a different type of session, pending discussion with organizers

Mark those that could be organized in the preparatory phase should organizers agree.

Red basket

Proposals on which there is not consensus as a final decision and there is no need for further discussion.
