

TAKING STOCK OF IGF 2023 AND SUGGESTED IMPROVEMENTS FOR IGF 2024

Submitted by Kossi AMESSINOU

It is important to organize the IGF sessions room by thematique as soon as possible. When we have more sessions for some thematique, it is better to clarify the update we are waiting for in each session and provide their own complementarity.

The power adapter or power bank must be available also for participants coming from outside the town. The local mobility by car and bus and train or ticket for participants is also critical to provide on arrival in the airport. The welcome desk is important in airports. It will be good to negotiate hotel rates for participants also.
