IGF Best Practice Forum Cybersecurity Capacity Building

27 November, 13:00 UTC

Agenda

1. Welcome
2. Update on the BPF Cybersecurity Capacity Building
3. Preparations for the BPF session at the IGF meeting in Riyadh
4. Presentation on the Cyber Capacity Building Impact Evaluation project
5. Wrap-up

IGF Best Practice Forum Cybersecurity Capacity Building

- > IGF intersessional activity
- > look into capacity building to enhance cybersecurity and trust

- > BPF session at IGF 2024, Riyadh, 17 December, 16:45-18:00 local time (13:45-15:00 UTC)

Previous work of the BPF Cybersecurity focussed on cyber norms agreements.

These output reports are available on the BPF's webpage at <https://intgovforum.org/en/content/bpf-cybersecurity>

IGF Best Practice Forum Cybersecurity Capacity Building

The proposal for a BPF on Cybersecurity Capacity Building as part of the 2024 cycle of IGF intersessional activities was presented and confirmed at the February meeting of the IGF Multistakeholder Advisory Group (MAG) in Riyadh.

The BPF's work plan was subsequently presented to the broader IGF community, inviting feedback for further refinement.

Following the consultation and feedback received, the work plan was updated. Most notably, the BPF shifted its focus from compiling a mapping of existing cybersecurity capacity-building initiatives, to instead start from the observation that several organisations already provide such mappings and inventories.

It was recommended that the BPF explore how this wealth of information is available and accessible to those seeking cybersecurity capacity building, and discuss suggestions to facilitate the efficient exchange of information and ensure it effectively reaches its target audiences.

BPF activities & BPF session at IGF 2024

- The BPF is collecting examples of mappings and inventories of cybersecurity capacity building initiatives
Submit your examples <https://forms.gle/UkJrtct7ru2PzFJp8>
- Main session Best Practice Forum Cybersecurity Capacity Building at the IGF 2024 in Riyadh
Tuesday, 17 December 2024, 16:45-18:00, main session hall (and online, 13:45 - 15:00 UTC)

Session outline:

Problem statement

While various mappings, inventories, and initiatives provide a wealth of information on cybersecurity capacity-building offerings, overlaps and gaps in information exist and the information may not reach its target audience effectively.

Discussion round 1: feedback on the problem statement

Discussion round 2: opportunities, best practices, solutions (quick fixes, long term), recommendations

Comments ? Feedback ? Suggestions?

Presentation on the Cyber Capacity Building Impact Assessment project
