

IGF

INTERNET GOVERNANCE FORUM

Join the global discussion on internet governance!

The Internet Governance Forum (IGF) is a UN-convened space for dialogue on digital and Internet policy issues. Since 2006, The IGF has brought people together to discuss challenges, exchange perspectives, and best practices through its national, (sub)regional, youth, and global forums, as well as intersessional activities.

Open & Inclusive

Anyone can participate for free both online or onsite.

Global & Multistakeholder

Connects Governments, Civil Society, Private Sector, Academia, Technical Community, and Youth.

Connected to Real Policy Spaces

Your contributions shapes UN digital policy processes and global digital governance.

How you can join the discussion!

Are you part of civil society, the private sector, academia, or the technical community and want to help shape the discussion on a specific digital issue? Join a [Policy Network](#), [Best Practice Forum](#), or your local [National or Regional IGF!](#)

Are you a policymaker who want to learn more about digital governance and connect with parliamentarians across the globe? Join the [IGF Parliamentary Track](#).

Are you between the age of 18-35 and want to contribute to shaping digital policy dialogue? Join your local [Youth IGF](#) or the [IGF Youth Track!](#)
