Internet users' data and their unlawful use

You are using Internet

- All data that you pass through Internet are on the street

    - Documents
    - Photos
    - Videos
    - Files and Directories

- They may be used for or against the public interest

Internet users' data and their unlawful use

Internet is a wonderful tool, that should be used with care

- The data collected can be used for

  - Data processing and analyzing
  - Better understand the need of costumers
  - Provide more kinds of services and goods
  - Improve the quality of service provided

- May be a source of innovation and growth

Internet users' data and their unlawful use

Internet is a wonderful tool, that should be used with care

- The data collected can also be used for

  - Personal attacks
  - Business Hijacking
  - Political Interest
  - Or simply, they can be Sold

- They may be used against you, without your knowledge

Internet users' data and their unlawful use

How to protect our data?

- **Technical solutions**

    - Efficient at a certain level only

    - Like the security of your money at home

    - More and better security tools -> Less risk

    - Any security tool may be annihilated

- **Technical solutions reduce the risk, but don't eliminate it**

Internet users' data and their unlawful use

How to protect our data?

- It is a behavior

  - Our life shouldn't be put on Internet
  - Only necessary and not very personal things
  - Don't use untrusted sites and platforms
  - Don't use untrusted e-mail

- Changing behavior & being aware of possible harm helps a lot

Internet users' data and their unlawful use

How to protect our data?

- **To be aware of the risk**

    - Never get rid of using Internet
    - Change our behavior
    - Use the best security tools
    - Update these tools as necessary

- **Data protection and Privacy are a real challenge today**
