

South School on Internet Governance 2017

IG training for Latin America and the Caribbean since 2007

SSIG 2016 OAS Venue Washington DC, USA

Objectives and Mission of the South School on Internet Governance

- Increase the number of representatives from the Latin American and Caribbean Region in the Internet ecosystem
- Train the next leaders of Internet Governance in their countries and in the region
- Grant fellowships to all participants

South School on Internet Governance rotates among countries

2009 Buenos Aires

2010 Sao Paulo

2011 México

2012 Bogotá

2013 Panamá

2014 Trinidad & Tobago

2015 Costa Rica

South School on Internet Governance Principles

- Full gender balance among fellows
- As much geographic diversity as possible
- Grant fellowship to all selected candidates
- Fellows selected by group of experts, organizers and host
- Full program has simultaneous translation English-Spanish
- Full program offers remote participation with video streaming and two audio channels in English and Spanish

Target audience and delivery methods

- All interested in IG but not yet included in the ecosystem
- From all stakeholders as much balanced as possible
- There is special interest from governments and regulators
- Remote participants can make questions and comments
- Once selected fellows receive online material and training
- During the training they complete daily satisfaction survey
- After the training all participants complete a survey
- After the training fellows must send a report

Internet Governance topics

International scope with a local and regional focus

- Network neutrality and zero rating services
- Sustainable connectivity and universal access
- Internet development and its global impact
- Post IANA Transition, present and future perspectives
- The impact of the Internet in Democracy
- Trust, cybersecurity and privacy challenges in the Internet
- Standards for ISPs and the Internet: Challenges and opportunities
- An open and accessible Internet: Freedom of expression in the web
- The impact of online platforms on the Internet and the Society
- DNSSEC in Latin America
- Cloud computing and the regional challenges
- National Security, Legislation and Freedom of Expression in the Internet
- Internet Governance Forum: perspectives for the next 10 years
- Internet infrastructure, present and future
- Development of e-government in the Americas
- Present and future perspectives of domain names – New gTLDs
- Digitalization and access to educational materials
- Internet Fragmentation
- Security and Privacy Challenges in the web
- Multi-stakeholder model in cybersecurity
- Gender and Cyber Security
- Internet of things and smart cities
- Digital currencies and blockchain

Celebrada en Washington,

La edición de la Escuela del Sur de Gobernanza de Internet se llevó a cabo el 29 de marzo al 1 de abril de 2016, organizada por la Organización de los Estados Americanos (OEA) en Washington, D.C. Más de 180 becarios asistieron a una sesión intensiva de cuatro días. La actividad estuvo bien representada en este boletín de la ICANN que compartió su contenido en cinco diferentes paneles:

- Transición de la custodia de la IANA.
- Perspectivas Presentes y Futuras - Theresa Swinehart, VP Senior de Estrategia para Múltiples Partes Interesadas e Iniciativas Estratégicas.
- Foro de Gobernanza de Internet: Perspectivas para los Próximos 10 años - Veni Markovski, VP para Participación de UN.
- Infraestructura de Internet, Presente y Futuro - Carlos Alvarez, Gerente Senior de Participación Técnica del Área de Seguridad, Estabilidad y Flexibilidad.
- Perspectivas presentes y futuras de los nombres de dominio - novos gTLDs - Daniel Fink, ICANN.
- Modelo de Múltiples Partes Interesadas de Participación de Partes Interesadas e Iniciativas Estratégicas.

OAS and CCAT-LAT Organize the Eighth South Security

March 24, 2016

The Organization of American States (OAS) and the Caribbean (CCAT-LAT) will organize, from March 29 to April 1, 2016, the Eighth South School on Internet Governance, a course on internet governance focusing on the theme chosen for this edition: cybersecurity and freedom of expression.

The event, which brings together distinguished hemispheric new opinion leaders in matters related to internet governance with special emphasis on the Latin America and Caribbean region, will be held at the OAS Headquarters in Washington, D.C., USA.

The Secretary General of the OAS, Luis Almagro, will be the main speaker, along with the President of LACNIC, and President of CCAT-LAT.

ITC at the 8th South School on Internet Governance

Between March 29th and April 1st, 2016, was held at the OAS headquarters in Washington, United States, the 8th edition of the South School on Internet Governance. This event brought together more than 200 participants and experts to discuss the future of internet governance, focusing on the theme chosen for this edition: cybersecurity and freedom of expression.

ITC's commercial manager, Eng. Eduardo Carazo, participated in this event as a cybersecurity expert, and acting as moderator for the session named "Network neutrality and its impact in the web". Distinguished speakers participated in this session, such as Jared Curtson from Ericsson, who stressed about the need to maintain an open internet in order to promote innovation. In this same panel participated Mr. Kevin Martin, VP of mobile and global access policy to Facebook, who shared with the audience Facebook's vision regarding the neutrality and accessibility of internet, sharing details of a project which aims to provide internet access to areas where there is no network antennas, by using solar drones with a flight capability of several months and reaching heights of up to 18 kilometers.

In the session "Trust, cybersecurity and privacy challenges in the internet", Mr. Carazo participated as a speaker, addressing some of the major problems of our times.

First Remote Hub in Barbados organized by ISOC Barbados Chapter

40 participants during the four activity days, from all stakeholders

Student testimonials

"It has been an unforgettable experience, the place, the group and the organization"

Matías Jackson, ISOC Uruguay.

"All sessions were interesting and diverse. Panels were excellent, it was great listen to the different points of view from faculty members"

Mariana Castro Hernández, Government, Costa Rica.

"The SSIG was an enlightening experience as it provided me a space to exchange ideas with different people, as well as to enhance my knowledge on IG issues"

Kimberly Anastácio, Civil Society, Brazil.

"Excellent, it was a school that reviewed all Internet Governance issues, each one was addressed by the experts in a direct and personal way"

Jhon Caballero Martinez, Academia, Colombia

"The program was great. All the panelists made quality presentation"

Blaise Arboulet, Civil Society, Canada.

"Having a technical background, I found the program very diverse, all the different point of views from all stakeholders made it very interesting and I have now the need to explore new Internet Governance related issues"

Jonathan Lopez Cisneros, Private Sector, Costa Rica.

Student testimonials

“Excellent experience to enter into the Internet Governance world, knowing all the major actors and debating about the most relevant issues”

Esteban Lescano, private sector, Argentina.

SSIG is an excellent opportunity to expand horizons and make very good friends, with the objective of connecting and acting now that there are several new important changes in Internet Governance, about the future of ICANN and our participation in this new scenario. This is essential for all Internet user”

Carlos Macher Bárcenas, International Organizations, Peru.

The experience was insightful. I made new friends, and expanded my definition of cybersecurity. I must point out that the variety of topics discussed has helped me make new connections with my personal research.

Oleksandr Tsaruk, Government, Ukraine

“Complete, entertaining, dynamic, interesting”

Angel Sevilla, Government, Honduras

SSIG is a very useful activity to debate about different IG issues, share opinions and experiences, network and learn”

Vivian Carolina González Cristancho, Government, Colombia

Student testimonials

“The activities were engaging and provoking, we recieved a comprehensive view into Internet governance. I was forced to reevalute some of my most cherished beliefs about security on the virtual domain”

Germán Linares, Academy, United States

“I had the opportunity to know about projects from other countries that can be replicated in Puerto Rico. In the informal conversations with other fellows we could establish cooperative working groups to address shared concerns”

Alfredo Calderón Serrano, ISOC Puerto Rico.

Excellent content but also great networking opportunities

Bartlett Morgan, ISOC Barbados

Es un foro de intercambio entre líderes de la región donde se aprende nuevos conceptos, se profundizan otros y lo más importante, invita al debate natural con personas que, desde distintas perspectivas, opinan sobre los temas expuestos en el evento

Yoselin Vos Castro, Government, Panama

“Apart from the vast array of topics, I had the opportunity to meet like minded persons and learn from and share within a diverse community”

Andre M Edwards, Private Sector, Trinidad and Tobago.

Outcomes of the South School on Internet Governance

Several former fellows now highly involved in MAG, ISOC, ISOC Chapters, RIRs, regional organizations, governments.

After organizing the school, government created a specific area to follow up and participate in the Internet Governance ecosystem.

In some countries it was the trigger for organizing national dialogues or national IG forums, ISOC chapters.

Many fellows are selected for other fellowship programs: ICANN, ISOC, IETF, regional IGFs, etc.

Lessons learned

**There is great value in the network created by the school
For both fellows and faculty**

Rotation between countries is complicated but is worth the effort

Local partner is a relevant part of the success

Fellows are our best ambassadors
