You can also select additional speakers from the drop-down in subsequent editions of this form.

Important: When pressing "Save Proposal" at the bottom of this form, even if you do not mark the proposal as finished, the individual(s) you indicate in the below fields or highlight/select in the dropdown menu will receive an automated message asking if they consent to be included as a provisional speaker in your workshop. In light of this, you are strongly encouraged to contact your speakers prior to submission.

Please also note: Speakers' confirmation is not required for your proposal to be considered complete and eligible for evaluation. Kindly be aware, however, of the requirement to describe how you would use your speakers and to describe the planned views/perspectives you wish to include as part of your programme. This is asked in question #13. (For more information, please refer to the page on "[Considerations for Workshop Proposers](#)".)

Please find in the drop-down below the names of rostered resource persons/speakers (hold down Ctrl key and click on names to highlight/unhighlight each of them). Additional information about these rostered persons is available [here](#).
