1) The IGF sessions need to be more open format in terms of participation
2) Internet Governance Forum is a forum where people should be prioritized to speak
3) More youth leaders and better interventions need to be integrated
4) Grassroots level initiative should be given more opportunity
5) More innovative ideas and collaborative efforts need to be focused for sessions
6) Remote participation should be further facilitated with priority and motivation
7) Priority must be given to least developed countries and their participants in sessions
8) Open MAG members session should be facilitated
9) Coordination of internet organization for fellowship and collaboration
10) BPF should be made more visual
11) IGF should further focus on open IG capacity building courses for participants
12) National and Regional Initiative needs to be more active and vigilant during the IGF
13) IGF needs to be more disable friendly not just from physical infrastructure but from other aspect of making it more convenient
