

These are my suggestions:

1. Deliver certificates of participation.
2. Deliver the folder with the program of the event, pens key rings, and other details for the memory of the participants.
3. That a commission be created to visit the mounted stands to stimulate the participants and socialize the experiences that are shown.
4. To have for the accreditation or for the final day, the possibility of giving in the digital support, the main interventions made so that they remain as the memories and the social reach by the participants in their respective countries and communities.

For now those are my suggestions.

Warm greetings.
