

Dear MAG,

As requested, here is a brief written update of the Working Group on Outreach and Engagement:

- One of the main incorporated activities has been the weekly update on Internet Governance curated by Mamadou, one of the co-facilitators of the WGOE and disseminated via social networks.
- Also, the call for workshops was spread out via several mailing lists and social networks.
- We kindly invite MAG members to join the mailing list. We're planning to launch a coordination call during next week, in order to better tackle the outreach and engagement challenges and opportunities.

All the best,

Israel, on behalf of WGOE co-facilitators
