

IGF Dynamic Coalition on DNS Issues

Meeting minutes

Meeting No. 3

Cisco WebEx

February 28, 2019

Present: Susan Chalmers, Melinda Clem, Ajay Data, Steve DelBianco, Avri Doria, Roberto Gaetano, Lianna Galstyan, Sarmad Hussain, Peter Koch, Jim Prendergast, Nik Smith, and Dennis Tan Tanaka.

During this brief virtual meeting, DC-DNSI members previewed the Universal Acceptance-related activities that would take place in Japan during ICANN64.

Participants also considered the types of contacts that the DC-DNSI should be reaching out to for the purposes of a survey on Universal Acceptance, within the public sector. Suggestions received by the organizing team included a focus on the Ministry of the Interior, or the equivalent. Locating those individuals within governments that are engaged in procurement policies will also be helpful.

The DC-DNSI is considering establishing its own website, in addition to the dedicated page on the official IGF website.
