Update: This is underway. **Secretariat** to provide a narrative description to accompany MAG2020-XVII-1 the flowcharts describing the inputs and outputs of IGF 2020 and provide a more detailed timeline of what happens when in the processes related to public comment periods for the highlevel synthesis documents created by the secretariat. *Update:* The timeline for public comment periods is still to be finalised by the secretariat. 5. The IGF Secretariat provided an update on its activities: ☐ The secretariat has been working hard to create am IGF 2020 landing page on the IGF website. ☐ There is a communications plan underway and UN DESA will provide access to a graphic designer to work on the IGF 2020 website and help with video production as needed. There will be an IGF 2020 virtual helpdesk, with a chat function on the IGF 2020 landing page. Text from that chat function/helpdesk will be directed to the appropriate person. The secretariat is looking for volunteers to staff the helpdesk, with a plan to have the helpdesk be available 24 hours a day. MAG members and other IGF participants are welcome to help staff the desk. The helpdesk operators will access a web interface to interact with people accessing the chat function, and can either answer directly for simple requests, or pass the query on to contacts on a list for more complex requests. ☐ Main sessions and high-level sessions at IGF 2020 will be conducted in webinar format, as it's a relatively more secure format, and can host more people in the virtual room. Other session organisers will be asked what format they wish to host their session in. The main and high-level sessions will also be streamed on YouTube, Facebook and UN Web TV. All IGF sessions will be streamed via YouTube. □ With both the opening session for IGF 2020, and the high-level sessions, the plan is to make them dynamic, rather than a series of prepared speeches. ☐ Invitations have been sent to the Geneva based missions and international agencies asking them to "save the dates" for IGF 2020. ☐ The secretariat is planning to add more sessions to the IGF 2020 schedule to encourage social interaction between participants. The plan is to have at least 60 minutes of networking scheduled in small segments across each day. There is still discussion about whether to create networking sessions around interests, or perhaps geographic regions. ☐ The secretariat is encountering difficulties scheduling the music night due to the volunteer musicians being in different time zones, so while a traditional music night may not be possible, it might be possible to schedule solo music performances. ☐ The virtual IGF Village will give each booth a dedicated page. Participants will be able to schedule one-to-one meetings with booth organisers via a link on each booth's page. The theme for the parliamentarians roundtable has been decided: Building trust t in a time of COVID-19 response and post COVID-19 recovery.

	The high-level track is still being developed. Giacomo Mazzone from the EBU has been assisting the secretariat identify professional journalists to moderate the sessions in this track.
_	included in each session of the high-level track.
	MAG members were encouraged to remind their networks that there will be two
_	webinars in the coming week, to learn how the online sessions will work.
	MAG members from the Global South will be able to have their Internet connection costs covered for the time of the IGF 2020, as happened for the 2 nd Open Consultation and MAG meetings in June. There is also ongoing discussion about whether remote hubs can be sponsored.
	There is discussion to see if it is possible to give remote hubs some air time during IGF sessions.
	ACTION ITEM: MAG2020-XIX-1: MAG members from the Global South who wish to have their Internet connection costs reimbursed to email the IGF Secretariat.
	ACTION ITEM: MAG2020-XIX-2: The secretariat to send the draft communications plan to the MAG list for their information.
Th	ere was input from MAG members on the preparation for IGF:
	Ms. Esterhuysen noted that feedback she'd had from NRIs was that holding sessions in webinar mode led to a greater drop off in participation. Another MAG member noted that the ease of picking and choosing virtual sessions meant that there could be a significant difference between the number of people registering, and those who actually participated in a session.
	, i
	everything – every possible scenario – as much as possible before the event starts. This is particularly important for the various tools that can be used to remove disruptive participants – the tools can be invoked very quickly if the technical support knows exactly what to do.
	Ms. Esterhuysen encouraged MAG members, particularly those involved in NRIs that have held online events this year, to share their experiences with online participation on the MAG mailing list.
	There was a request for details about how Zoom links would be made available to participants. Mr. Bobo explained that the links would be made available within the interactive schedule for the meeting, with meeting organisers and speakers being
	given separate links to use if their sessions are to be in webinar mode. It was also clarified that session organisers and panellists could meet just before a
	session within the Zoom room if the session was being conducted in webinar mode, but that option was not available for meeting mode (where anyone can enter the room early).

7. There were updates from the main session organisers. Ms. Esterhuysen noted that the updates had focused on logistics and requests that the updates at the following MAG meeting concentrate on the content of main sessions. She requested that the main session organising groups finalise descriptions of their sessions as soon as possible, to place in the IGF 2020 schedule, noting that people were already deciding which sessions to attend.

ACTION ITEM: MAG2020-XIX-4: Main session organising groups to report on the content of the main sessions in the next MAG meeting and to develop descriptions of the sessions ASAP to be published on the IGF 2020 schedule.

ACTION ITEM: MAG2020-XIX-5: MAG members to reach out to their networks to see if anyone plans to announce funding support for IGF and the IGF+ model at IGF 2020. If so, the Digital Cooperation main session organisers would like to include these announcements in the Digital Cooperation main session.

- 8. There was a brief update on the progress of Best Practice Forums, with Ms. Esterhuysen suggesting that some of the discussion about the more general needs of the BPFs in future be deferred until the future discussion planned on the BPF on BPFs report.
- 9. The Secretariat reported that the next MAG meeting would be held **20 October** at 20:00 UTC.
