About

Due to the COVID-19 outbreak, the IGF Peru 2020 was held 100% online. Despite this situation, the organization process continued to comply with the main criteria of the Internet Governance Initiatives: Bottom-up organisation, openness, transparency, inclusiveness, multistakeholder approach and non-commercial.

I. Organizing Committee (OC)

Sandro Marcone
Cultura Digital. Civil Society. Contact email: smarcone@yahoo.com

Carlos Guerrero
NGO Hiperderecho. Civil Society. Contact email address:
carlos@hiperderecho.org

## II. Description of the organizing process

As in previous editions, the Organizing Committee (OC) of the previous year met in mid-2020 to discuss the possibility of organizing a new edition of the Peruvian Internet Governance Forum (IGF Peru). Due to the pandemic situation, the OC discussed the viability of the IGF, agreeing to organize and held it virtually.

The OC conducted private and public consultations within their stakeholders to define the agenda and the speakers, always looking for balance and considering diversity criteria (gender, sector, political views, etc.). Through the event registration form, the participants were also invited to propose speakers and submit side-events proposals (workshops, lightning talks) based on the agenda.

The previous experiences of the 2016-2019 Peruvian IGFs were used to improve the online participation and reinforce our commitment with the Internet Governance principles of openness, inclusiveness, non-commercial, and multi-stakeholder participation.

As in the 2019 edition, the event was open to the public, free of charge and was widely disseminated in social media. We had 2886 people registered to attend the event.

Registered people during IGF campaign

The event was broadcasted using the Facebook fanpage IGF Peru.

At the end of the conference, the videos of all the panels were posted on the official website of the event www.gobernanzadeinternet.pe.
